Sea Pouch).

DISPATCH NO. _____ HUL-A- 767

TO ACOS, []
FROM LINCOLN For LUGTON INFO Washington

DATE 9 MAY 1954

SUBJECT { GENERAL Operational Matters
SPECIFIC Communications between CALLIGERIS and SEMANTIC

1. With reference to the communication matter brought up in your dictaphone notes received 5 May 1954, it is agreed that all possible correspondence between CALLIGERIS and SEMANTIC should be forwarded by the lateral pouch facilities now available. This method may not be quite so rapid as the use of native couriers, but certainly the security afforded will normally outweigh the lack of speed. The selection of the method used in individual instances will have to be made by you, taking into consideration the nature of the communication.

2. It is also agreed that all cable traffic between CALLIGERIS and SEMANTIC should be in code, as well as that which goes by courier. It is essential that LINCOLN be provided with information on all code terms used.
